

# **WARNING**

# **FISHIN' POX**

VERY CONTAGIOUS TO ADULT MALES

**-- SYMPTOMS --**

Chronic complaints by the affected party as to the need for sunshine, fresh air, and relaxation.

Patient exhibits a blank expression, loss of appetite, and is deaf and blind to wife and kids.

Patient has no ambition and no desire for physical exertion, labor, or work of any kind.

Patient is often seen checking tackle catalogs, sale fliers and Internet fishin' pages.

Patient hangs out in Tackle Stores, Bait Shops and Sporting Goods Departments.

Danger signs include late night visits to post messages on the fishing boards;  
incoherent mumbling; lying to everyone about everything; babbling.

**THERE IS NO KNOWN CURE!!**

**TREATMENT...**

Disease is not fatal and medication of any type is useless. Patient should be shown catalogs from E-Bait Express and Cabin Creek Baits at frequent intervals. Patient should be encouraged to go fishing as soon and as often as possible, for as long as physically able.
